PREFACE

This supplement to the 1982-83 Public Accounts of Alberta shows General Revenue Fund expenditure from appropriated funds by payee, for the year ended March 31, 1983.

For the purposes of this supplement, expenditure includes accounts payable at March 31, 1983 paid on or before April 30, 1983.

Expenditure is shown in the following categories with a further breakdown by department:

- (a) Manpower,
- (b) Grants,
- (c) Supplies and services, purchases of fixed assets and other.

All payments made to a payee that exceed a reporting minimum are shown even though individual departmental amounts may be less than that minimum, except that payments made to individuals for welfare, Alberta Assured Income Plan, Alberta Heritage Fund Mortgage Interest Reduction Programme and the Small Business and Farm Interest Shielding Programme are not reported by payee but are only shown in total.

The reporting levels are where the aggregate of payments is:

- (a) \$1,000 or more for manpower,
- (b) \$2,000 or more for grants,
- (c) \$5,000 or more for supplies and services, purchases of fixed assets and other.

In addition to the above, details of salaries, allowances, travelling and miscellaneous expenses paid to or on behalf of Members of the Legislative Assembly and Members of the Executive Council, and payments under the M.L.A. Pension Act are reported by payee.

Details of payments from the Capital Projects Division of the Alberta Heritage Savings Trust Fund, Alberta Petroleum Incentives Program Fund and the School Foundation Program Fund are also reported by payee.

TABLE OF CONTENTS

Statement No.		Page No.
	General Revenue Fund:	
	Reconciliation of Expenditure	0.1
1	Members of the Legislative Assembly and Members of the Executive Council, Salaries, Allowances, Travelling and Miscellaneous Expenses	1.1

PUBLIC ACCOUNTS

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to define the objectives and goals of the project. This helps to clarify what needs to be achieved and provides a clear direction for the team.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable tasks and determining the resources needed to complete each task.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress regularly to ensure that the project is on track.

5. The final step is to evaluate the results of the project. This involves comparing the actual outcomes against the objectives and goals to determine the effectiveness of the project.
